Spring Framework, SpringBoot, Junit & Mockito, Git, Github, Jira.

Work History

Cognizant, Kolkata (November 2022 - July 2023)
Role: **React Developer**
- Resolved CSS bugs and enhanced user experience across devices, using SASS also.
- Addressed JavaScript bugs, optimized loops, and implemented substring functions for efficient data processing.
- Developed and maintained React components for billing and store selection, utilizing Redux for centralized state management.
- Analysed and fixed billing issues in React/Redux for error-free shopping experiences.
- Documented CSS and JavaScript solutions for team knowledge sharing.

Cognizant, Kolkata (October 2023 - Present)
Role: **Java Full Stack Developer**
- Designed RESTful APIs with Spring Boot for CRUD operations, using Hibernate and MySQL for database management.
- Implemented authentication and authorization with Spring Security.
- Ensured code quality through unit and integration tests using JUnit and Mockito.
- Collaborated with front-end developers to integrate back-end services and participated in Agile ceremonies.
